PROFESSIONAL SUMMARY

Second year B.Tech student specialising in **Computer Science Engineering (AI & Data Science)** with a strong foundation in programming, statistics, and **data analysis**. Skilled in **Python, SQL, data visualisation**, and **machine learning**, with **hands-on experience** building data-driven projects. **Winner of the UDBHAV 2K26 National Level Hackathon** for **developing an AI-powered peer learning platform**. Passionate about **applying data science techniques** to solve real-world problems and eager to contribute to innovative projects while growing as a data-driven problem solver and **collaborative team player**.

EDUCATION

SRKREC

B.Tech

2024 – 2028

CGPA: 9.10 (3rd Sem)

Jawahar Navodaya Vidyalaya (JNV)

Higher Secondary Education (CBSE) – Mathematics, Physics, Chemistry

2022 – 2024

88.88%

Jawahar Navodaya Vidyalaya (JNV)

Secondary School Certificate (CBSE)

2021 – 2022

80.00%

PROJECTS

StudySphere – AI-Powered Peer Learning Platform:

[StudySphere](#)

- Developed an **AI-based peer learning** platform to match students based on **complementary skills** and learning needs.
- Implemented **auto-generated quizzes** for **dynamic skill validation** and expertise verification.
- Designed structured peer collaboration features to **enable knowledge sharing** and problem solving.

Tech: Python, JavaScript, HTML, CSS, Vercel

Heart Disease Prediction using Machine Learning:

[GitHub](#) | [CardioScan](#)

- Built a **Logistic Regression**-based model with **feature selection and preprocessing** for heart disease prediction.
- Developed **REST API using FastAPI** for **real-time prediction** from clinical inputs.
- Created an **interactive frontend** and deployed the application using cloud platforms.

Tech: Python, Scikit-learn, Pandas, FastAPI, HTML, CSS, Vercel, Render

All India Villages API & Explorer:

[GitHub](#)

- Cleaned and **integrated multi-source Excel datasets** using Python and **Pandas**.
- Modelled hierarchical geographic data in PostgreSQL with **460K+ village records**.
- Built API** and interactive UI for fast search and **data exploration**.

Tech: Python, PostgreSQL (NeonDB), FastAPI, Pandas, JavaScript

SKILLS

- Programming Languages:** Python, Java, C, SQL
- Data Science & Machine Learning:** NumPy, **Pandas**, Matplotlib, **Seaborn**, **Scikit-learn**
- Core Computer Science:** Data Structures & Algorithms, DBMS, **Object-Oriented Programming**
- Development Tools:** GitHub, VS Code, Jupyter Notebook, Vercel
- Data & Analytics:** Data Cleaning, Data Preprocessing, **Exploratory Data Analysis (EDA)**, Data Visualisation
- Soft Skills:** Problem Solving, Analytical Thinking, **Communication**, **Team Collaboration**, **Presentation Skills**

ACHIEVEMENTS

- Winner – UDBHAV 2K26 National Level Hackathon**, conducted by CSI Chapter (March 2026)
- 1st Prize – Elocution Competition on “Women Empowerment”**, conducted by ISTE

CODING PLATFORM

- LeetCode:** Built a solid foundation in algorithms and data structures by solving **100+ problems**.
- Unstoppable:** Actively participated in **coding challenges**, demonstrating **problem-solving** and analytical skills.
- Enhanced algorithmic thinking and coding proficiency through diverse **problem-solving experiences**.

CERTIFICATIONS

- Cisco Certified in Python (intermediate)**, validating proficiency in programming fundamentals and **problem-solving**.
- Certificates in **Unstoppable Weekly Coding Challenges**, reflecting consistent performance in competitive programming.
- SQL (Intermediate) – HackerRank:** Skilled in querying databases, joins, aggregations, and data manipulation.

Positions Of Responsibility

- Senior Under Officer (SUO), NCC – Jawahar Navodaya Vidyalaya (Highest Rank in NCC)**
- Team Lead – Team SparkX, UDBHAV 2K26 Hackathon**
- School Leader (SPL) – Jawahar Navodaya Vidyalaya**
