PROFESSIONAL SUMMARY

Third-year B.Tech student in Computer Science Engineering (AI & Data Science) at SRKR Engineering College with a CGPA of 8.97. Skilled in Python, SQL, Data Analysis, Exploratory Data Analysis (EDA), Data Visualisation, Statistical Analysis, Machine Learning and Full-Stack Development. Developed data-driven solutions through academic, internship, and hackathon experiences. Secured 1st Prize at the UDBHAV 2K26 National Hackathon among 60+ teams. Hands-on experience in predictive modelling and data-driven application development, with a strong foundation in problem-solving and leveraging AI and Data Science to solve real-world challenges. Seeking to contribute to and enhance my expertise through in Data Science, Artificial Intelligence, and emerging technologies.

EDUCATION

B.Tech in Computer Science Engineering (AI & Data Science) <i>SRKREC, Bhimavaram, Andhra Pradesh</i>	2024 – 2028 CGPA: 8.97(4th Sem)
Higher Secondary Certificate (CBSE) – PCM <i>Jawahar Navodaya Vidyalaya (JNV)</i>	2022 – 2024 88.88%
Secondary School Certificate (CBSE) <i>Jawahar Navodaya Vidyalaya (JNV)</i>	2021 – 2022 80.00%

PROJECTS

Heart Disease Prediction using Machine Learning:

[GitHub](#) | [CardioScan](#)

Technologies: Python, Scikit-learn, Pandas, FastAPI, HTML, CSS, Vercel, Render

- Performed data preprocessing and Exploratory Data Analysis (EDA) on clinical data to identify key predictive risk factors.
- Engineered** an end-to-end predictive pipeline using a Logistic Regression model and achieved 84.6% accuracy.
- Deployed** the trained model as a **FastAPI REST API** on Render with Pydantic-based input validation, connected to a Vercel frontend for real-time inference.

StudySphere – AI-Powered Peer Learning Platform:

[GitHub](#) | [StudySphere](#)

Technologies: Python, JavaScript, HTML, CSS, LLM APIs, Firebase, Vercel

- Won **1st Prize at UDBHAV 2K26 National Level Hackathon** for this project among 60+ teams
- Designed a skill-matching algorithm to pair students with **complementary strengths** and learning gaps
- Integrated **LLM APIs to auto-generate personalised quizzes** for dynamic skill validation and expertise scoring.

All India Villages API & Explorer:

[GitHub](#)

Technologies: Python, PostgreSQL (NeonDB), FastAPI, Pandas, JavaScript

- Cleaned and integrated multiple datasets using Pandas, handled 460,000+ village records with hierarchical geographic structure
- Modelled a normalised relational schema in PostgreSQL for fast querying across state, district, taluk, and village levels
- Exposed data via a FastAPI REST API with search, filter, and pagination endpoints; built an interactive JS-based explorer UI

SKILLS

- Data & Analytics:** Data Cleaning, Data Preprocessing, Exploratory Data Analysis (EDA), Statistical Analysis, Data Visualisation, Power BI
- ML & Data Science:** NumPy, Pandas, Scikit-learn, Feature Engineering, Predictive Modelling, NLTK (Text Processing), LLM Integration, Model Evaluation, Hyperparameter Tuning
- Languages & Databases:** Python, Java, C, SQL, Oracle SQL, PostgreSQL, MySQL, SQLite
- Core Computer Science:** Data Structures & Algorithms, DBMS, Object-Oriented Programming, Database Design
- Tools & Platforms:** Git and GitHub, Power BI, VS Code, Jupyter Notebook, LLM APIs, Vercel, Render
- Soft Skills:** Problem Solving, Analytical Thinking, Communication, Leadership, Team Collaboration, Presentation Skills

ACHIEVEMENTS

- Winner – UDBHAV 2K26 National Level Hackathon**, conducted by CSI Chapter (March 2026)
- 1st Prize – Elocution Competition on “Women Empowerment”**, conducted by ISTE

CODING PLATFORM

- LeetCode:** Solved **180+ Data Structures and Algorithms problems**, strengthening problem-solving skills, algorithmic thinking, and proficiency in optimising **solutions** for time and space complexity.
- Unstop:** Multiple Weekly **Coding Challenge** winner with consistent top rankings in **competitive programming rounds**.

CERTIFICATIONS

- Tata GenAI Powered Data Analytics Job Simulation (Forge)** – AI-driven risk profiling and data analysis using GenAI tools in a simulated Tata business context.
- Data Analyst Internship:** Hands-on experience in financial data analytics, data visualisation, and business intelligence
- SQL (Intermediate) – HackerRank:** Querying databases, joins, aggregations, and data manipulation.

Positions Of Responsibility

- Team Lead** – Team SparkX, UDBHAV 2K26 **Hackathon**; coordinated a cross-functional team to build and present the project.
- Senior Under Officer (SUO), NCC** – Jawahar Navodaya Vidyalaya (**Highest Cadet rank in NCC**)
- School People Leader (SPL)** – Jawahar Navodaya Vidyalaya, managed a school-wide event and coordinated students
