PROFESSIONAL SUMMARY

Third-year B. Tech student in **Artificial Intelligence & Data Science** at SRKR Engineering College with a **CGPA of 8.97**. Skilled in Python, SQL, Machine Learning, REST APIs, and Full-Stack Development. Experienced in designing and deploying intelligent systems through projects and hackathons, including a peer-to-peer platform that **won 1st Prize at the UDBHAV 2K26 National Hackathon**. Passionate about building scalable AI solutions, integrating machine learning into production systems, and solving real-world problems through technology.

EDUCATION

B. Tech in AI & Data Science	2024 – 2028
SRKREC, Bhimavaram, Andhra Pradesh	CGPA: 8.97(4th Sem)
Higher Secondary Certificate (CBSE) – MPC	2022 – 2024
Jawahar Navodaya Vidyalaya (JNV)	88.88%
Secondary School Certificate (CBSE)	2021 – 2022
Jawahar Navodaya Vidyalaya (JNV)	80.00%

PROJECTS

AquaControl – ML-Driven Farm Management Platform

[GitHub](#) | [AquaControl](#)

Technologies: HTML, CSS, JavaScript, FastAPI, NeonDB (PostgreSQL), Git & GitHub, Vercel(frontend), Render(backend)

- Built an ML-driven **full-stack** aquaculture management platform for **pond monitoring, seed stocking, billing and farm operations**.
- Developed REST APIs using **FastAPI** and **PostgreSQL** (NeonDB) for **real-time operational** and inventory data management.
- Integrated ML-based decision-support engine covering analytics across disease risk level, water-quality/pond condition, feed estimation, harvest prediction and profit forecasting, with recommendations generated from model outputs.
- Built interactive dashboards for pond health and stock metrics in real time, pulling from the APIs of billing and monitoring modules.

StudySphere –Peer Learning Platform:

[GitHub](#) | [StudySphere](#)

Technologies: HTML, CSS, JavaScript, LLM APIs, Firebase, Git & GitHub, Vercel

- Won **1st Prize at UDBHAV 2K26 National Level Hackathon** for this project among 60+ teams.
- Developed a peer-learning platform to match students with **complementary strengths** and learning gaps.
- Integrated **LLM APIs to generate personalised quizzes** for dynamic skill validation and expertise scoring.
- Designed a data-driven workflow for skill profiling, learner matching, personalised assessment, study rooms and to-do plan.

Heart Disease Risk Prediction using Machine Learning:

[GitHub](#) | [CardioScan](#)

Technologies: Python, Pandas, Scikit-learn, FastAPI, HTML, CSS, Vercel, Render

- Performed **data preprocessing** and **Exploratory Data Analysis (EDA)** on clinical data to identify key predictive risk factors.
- Engineered** an end-to-end predictive pipeline using a Logistic Regression Classifier, **achieving 88.6% test accuracy**.
- Deployed** it through FastAPI REST endpoints on Render with Pydantic-based input validation and **real-time inference**.

SKILLS

- Programming:** Python, Java, SQL, JavaScript, R
- Data Science:** NumPy, Pandas, EDA, Statistical Analysis, Data Visualisation, Feature Engineering
- Machine Learning:** Scikit-learn, Regression, Classification, Cross-Validation, Predictive Modelling, NLTK (Text Processing), Model Evaluation, Hyperparameter Tuning
- Backend & Deployment:** FastAPI, Rest APIs, PostgreSQL, MySQL, Vercel, Render
- Core Computer Science:** Data Structures & Algorithms, DBMS, Object-Oriented Programming, Database Design
- Tools & Platforms:** Git and GitHub, VS Code, Jupyter Notebook
- Soft Skills:** Problem Solving, Analytical Thinking, Communication, Leadership, Team Collaboration, Presentation Skills

ACHIEVEMENTS

- Winner – UDBHAV 2K26 National Level Hackathon**, conducted by CSI Chapter (March 2026)
- 1st Prize – Elocution Competition on “Women Empowerment”**, conducted by ISTE.

CODING PLATFORM

- LeetCode:** Solved **200+ Data Structures and Algorithms problems**, strengthening problem-solving skills, algorithmic thinking, and proficiency in optimising **solutions** for time and space complexity.
- Unstop:** Weekly **Coding Challenge Winner** with consistent top rankings in **competitive programming rounds**.

CERTIFICATIONS

- Tata GenAI Powered Data Analytics Job Simulation (Forage)** – AI-driven risk profiling and data analysis using GenAI tools.
- SQL (Intermediate)** – [HackerRank](#): Demonstrated proficiency in joins, aggregations, querying and data manipulation.

Positions Of Responsibility

- Team Lead** – Team SparkX, UDBHAV 2K26 **Hackathon**; coordinated a cross-functional team to build and present the project.
- Senior Under Officer (SUO), NCC** – Jawahar Navodaya Vidyalaya, **Highest Cadet rank in NCC**
- School People Leader (SPL)** – Jawahar Navodaya Vidyalaya, managed school-wide events and coordinated 500+ students.
